"Our ministry has been providing Biblical worldview materials for nearly 20 years. In this time we have seen many 'worldview' products, but **ICONS** is among the very best. **ICONS** is a product that clearly and effectively presents teaching on the most important aspects of worldview understanding. It will give hours of quality instruction. I highly recommend this product for Christian schools, homeschoolers and church training."

"**ICONS** is a very good tool for teaching worldview to beginners. You've taken a very creative approach comparing worldviews so that people can understand the concepts and the differences. It's the kind of thing that could be used very profitably for self-study or as a teaching tool. In fact, we will inform all the Centurions about it so that they can get copies and use it in their own work. I'm thrilled to see this now in use!"
